Site Menu Recent News Commission Adopts Rules June 27, 2022 The Texas Commission of Licensing and Regulation adopted amendments to an existing rule at 16 Texas Administrative Code, Chapter 65, Subchapter M, §65.104, regarding the Boilers program. The adopted rule makes the necessary rule changes for the Boilers program to align the program rules with the advisory board changes made by House Bill 1560, 87th Legislature, Regular Session (2021), the Sunset legislation for the Department. The adoption justification was published in the June 24, 2022, issue of the Texas Register (47 TexReg 3665) and is available online. The updated rule chapter will be available on the Secretary of State website upon its effective date of July 1, 2022. Minimum clearance for Steris AMSCO 600 Steam Sterilizer February 3, 2022 Texas Boiler Law §755.025 states that: Sec. 755.025. INSPECTION. (a) The executive director shall require each boiler to be inspected internally and externally at the time of initial installation and at subsequent intervals as provided by the manufacturer. The executive director may provide that the inspection be performed by any inspector. Texas Boiler Rules §65.208(a) states that: Sec. 65.208 MINIMUM CLEARANCE. (a) All boilers and appurtenances shall be located so that adequate space will be provided for the proper operation, inspection, maintenance, and repair of the boiler. Manufacturer's recommended clearances must be met. An evaluation of the manufacturer's design and recommended clearances for the Steris AMSCO 600 (single door) has shown the manufacturer's recommended clearances do not provide adequate space for the proper operation, inspection, maintenance, and repair of the boiler. To ensure adequate space is provided for proper operation, inspection, maintenance, and repair of the boiler, pursuant to the above Texas Boiler Law and Rule, 36 inches of free space shall be provided at the side with the And in the rear for Verris AMSCO 600 Steam Sterilizer (single door). The questions relating to this technical grandfather must be addressed to the head inspector of the staff or to an inspection specialist, or boilers via e-mail@tdlr.texas.gov. The level - January 2022 edition of 18 January 2022 The articles of the January 2022 edition of TdLR on the level include: A Farewell from Brian Francis New Web Links to Program Statutes Electric Contractors necessary to recommend new students! Order BTB labels and declares online re-enactments of recent Covid-19 license: customer inspection requirements temporarily suspended March 26, 2020 to help fight the dissemination of the Covid-19 virus, TDLR has requested and received the authority from the Governor Greg Abbott to suspend certain regulatory requirements at state level, to the extent necessary to extend the inspection time requirements for boilers. A certificate of operation of the boiler that expires in the period of time from 13 March 2020 to 31 May 2020, does not receive any penalty for not having obtained a check before the expiry of the certificate of operation. All the owners of boilers who require an extension of the internal inspection interval will maintain the admissibility for an extension even if the required inspections have not been carried out. This policy will be applied to all boiler extensions for which the certificate of operation expires during the period of time of 13 March 2020 until 31 May 2020 (§755.025 and §755.026). Health and Safety Code) TDLR investigators will respond in the event of an accident or emergency. Please check the TDLR Covid-19 web page for more updated information. Inspector Image Portal No Longer Available 7 November 2019 effective 11 November 2019, the inspectors of the mobile stairs and boilers and members of the public can to the lift, escalators and inspection of the boiler and the units ingabudads ilg adroicr hitm5.
